Support President's Ball Asks Mayor

Mayor Paul Selmi has issued the following message to local residents:

San Mateo County has banded together in support of the grand President's Ball to be held tomorrow evening, Saturday, January 30, in the Tanforan Club House, San Bruno.

I appeal to the people of our city to participate in this affair, success of which is assured by the leadership efforts of a capable sponsoring committee and the co-operation of San Mateo citizens.

Funds raised at the ball will be used to control the dreaded disease infantile paralysis. Thirty per cent of the revenue will be sent to the President of the United States to be presented to the Georgia Institute for infantile paralysis sufferers, and seventy per cent is to remain in our county for the support of our county infantile wards.

This is a worthy cause, and I appeal to the people of Daly City to buy tickets to the affair. Happiness will come in the thought that purchasers have aided a crippled child to again return to normal health.

New Commissioners Named In Fire Dept.

Two new fire commissioners were appointed at the council meeting, Monday evening of this week. Ernest Cuneo of Company Four and George Volkman of Company Six were named to fill vacancies which have existed for some time on the fire board.

Applications for membership in the fire department were received from L. J. Canepa, J. K. Kapor, B. L. Meritt and John McHugh.

To assist the local health officer and build additional prestige in that department, Mayor Selmi appointed Councilmen Sundermann, Cavagnaro and himself as a committee which will sit with Dr. Shaghoian as a health board.

Above sketches show detail plans for basement and first floor of proposed new city hall. Specifications call for re-inforced concrete walls with steel frame and modernistic exterior.

EARLY HISTORY IS DEPICTED IN PROJECT SHOW

Federal Theater Players Open New Run Under Good Auspices

The widely hearlded bigger and better program for 1937 of the San Francisco Federal Theater Project had an auspicious premiere last night, when it presented the epic historical drama "Battle Hymn" at the Columbia. It got away to a good start. The entire house was practically sold out for the first night and the heaviest advance reservation list for the remainder of the run is pilling up, it was reported.

TEN ACTORS IN CAST

"Battle Hymn" will test the talents of approximately 100 actors. It has made the greatest demands on the Project's scenic department of any play yet produced by the government players. It has required the longest time in preparation of any of their plays. The costuming department has been at work for many weeks turning out the required authentic habiliments of statesmen, plainsmen, soldiers, frontiersmen and women of the fifties, and prior to that the entire research department was busily engaged combing through libraries, museums and private collections of early day souvinirs, keepsakes and curious in its search for facts regarding the period of the play.

The play is by Michael Gold and Michael Blankfort. It is built around the stirring times when John Brown moved to Kansas and there with his fighting family became the center of strife that eventually culminated in the Civil War.

Gilmore Brown, of the regional advisory staff and head of the Pasadena Community Players, pronounced the production the most finished he has seen done by any of the Federal Theater Projects, on the occasion of his visit recently when he witnessed one of the final rehearsals.

PLANS COMPLETE FOR PRESIDENT'S BIRTHDAY BALL

Many Local Civic Leaders And Officials Are Among Group Of 200 Daly City Patrons

All arrangements complete, hundreds of San Mateo County residents today planned their attendance at the fourth annual President's Birthday Ball at Tanforan Club House, San Bruno, tomorrow (Saturday) evening.

Almost every prominent citizen in Daly City has given full endorsement of the annual ball, which this year unites all San Mateo County in the greatest affair of this nature ever held.

FERRELL NAMES GROUP TO SEEK HIGHWAY SAFETY

South San Francisco Man And Coastside Resident Are Placed On Committee

District Attorney Ferrell named, Tuesday of this week, nine representative residents of San Mateo County to serve as a safety committee which will formulate plans to reduce the alarming county death toll which last year reached 80 persons.

The committee will meet with Ferrell this afternoon at Redwood City to select a chairman and adopt methods of procedure to cope with the problems which lie before them.

Members of the group are Charles Lambert of Redwood City, H. W. Edmonds of Redwood, Mrs. Robert McWilliams of Hillsborough, Samuel Merk of Burlingame, Thomas Hickey of South San Francisco, Martin Poss of San Mateo, Mrs. William Hayes of Burlingame, H. W. Regan of Burlingame and Colonel Felix LaCrosse of Half Moon Bay.

Observers mention that Daly City, one of the largest municipalities in San Mateo County is not represented on the traffic committee. Experience and capabilities of such men as Judge Wade H. Clay, Mayor Paul Selmi or Police Chief James Reardon seem to indicate that their membership in the group might be advantageous.

FACTORIES TAKEN

The French government took over seven aircraft factories early this week, a cabinet communique announced.

The action was based on authority of the new nationalization law permitting the government to commandeer any private property needed in rushing rearmament.

SPECIAL STAMP ASKED BRIDGE FIESTA OPENING

Popularity Of Previous Issues Prompts Request For Further Numbers

A special Golden Gate Bridge and Redwood Empire stamp may be issued by the government if Postmaster James A. Farley acts on a request made by the Golden Gate Bridge Fiesta committee.

Clyde Edmondson, general manager of the Redwood Empire Association, has been named chairman of a committee to seek to arrange for the issuance of the stamp in connection with the completion of the Golden Gate Bridge next May.

At the same time, it was disclosed that an interesting cachet, commemorating the opening of the bridge to traffic, will be released in May.

The cachet will be affixed to covers within a few minutes after the bridge is formally opened and will be mailed either from a warship in the harbor or from the Presidio of San Francisco.

Previous Golden Gate bridge cachets have been much in demand among stamp collectors, and it is anticipated that the last one will be equally popular. It will be produced under the direction of Supervisor Brown, general chairman, and Eric Cullenward, general manager.

NEW BOARD NOT TO CREATE S. M. "PORK BARREL"

Chairman Of Supervisors Declares That Employes Of County Will Not Be Discharged Without Cause

Chairman of San Mateo Supervisors H. H. Smith declared administration policies of the board, Monday of this week, when he stated that the heads of county departments are "on their own."

In giving the new charter a fair trial to prove its workability the chairman indicated that supervisors would not make a checker board of county offices and push political friends into positions which are already capably filled.

However, it was stated the board will not sit idly by and see county business conducted in an inefficient manner. When such circumstances arise changes will be made, but if officials are discharged there will be a reason for that action.

In substantiation of the statement made by the chairman, Supervisor James declared that the new board would not become an "employment agency." Efficiency in county government is the aim, and personnel

BUILDING PLAN FOR NEW S. M. JUNIOR COLLEGE

The new San Mateo Junior College plant, construction of which is expected to begin within the next year, will appear as shown in the above sketch when buildings are fully completed to conform with projected plans.

To start an expansion era for the junior college and build a modern plant to accommodate San Mateo students is the object in a recent merger.

Construction of the new buildings will be made on a "pay as you go" plan. The junior college at present has a plant, which it will sell, using the funds and approximately $100,000 in cash on hand to start the new units. Total cost of the college is expected to be around $1,000,000 when finished.

DEFEAT IN S. SAN FRANCISCO

Meanwhile, it appeared, champions of the project had virtually resigned themselves to defeat in the South San Francisco school district, where an election will be held the same day. They have made no attempt to win the district, in the face of opposition from the Chamber of Commerce, City Council and industrial leaders.

DAUGHTERS OF "KING" ARE MUCH IN DEMAND

By J. W. MARCHBANK

Turning out winners for the race course is an engrossing occupation. Frequent visits must be made to Heather Farm to work out plans of mating that have shown themselves to be good ones. Before a broodmare is sent to the court of any particular stallion the problems of blood lines, conformation, productivity and others must be taken into consideration. The reward for all the effort comes when a fleet, game youngster bounds down in front, leading the way to worthy competitors.

The fascination of the breeding of thoroughbreds never grows less; in fact, with the passing seasons it even becomes stronger. From the first it looked as though King Heather, an inbred Domino, would not only sire stakes winners, but what is of almost equal value to the breeder would beget daughters that would be highly useful as broodmares. Those anticipations have been completely realized.

Take the stakes winner Altobank, for example, by imported War Cry, from the King Heather matron, Princess Nadette. One would have to go far to find a better filly. She scored four times as a two year old last year and promises to develop into one of the best three year olds of her sex on the Coast.

Lately King Heather mares have been mated to quite an extent with the stakes winners and stakes producing Sweepster, and undoubtedly the foals will be of equal class to those from the War Cry-King Heather blend. In all the history of breeding there has not been a superior nick to that of Ben Brush and Domino and that is just what you have when you breed a daughter of the "King" to Sweepster.

In addition to Princess Nadette, dam of Altobank, the Stud Book shows eleven producing daughters of King Heather. In the impressive list are such well known producers as Annie D, Little Kid Carrol, Princess Evol and Givanna. Whenever a purchaser secures a King Heather filly he not only has a galloper of quality for the course, but one that he probably will find very valuable when given opportunities in the breeding paddock.

Looking things over throughout the land it would be impossible to discover any more promising stock for both the track and the farm than the female offspring of the "King," which, as fans recall, was himself undefeated on the course.

WPA IN ATTEMPT TO PUT WORKERS INTO INDUSTRY

Reduction Of WPA Rolls Means Social Improvement And Lessening Of Taxes

It is perfectly plain, from remarks heard from the average citizen that very few people have knowledge of the unemployment situation as it exists today, and what is being accomplished by the WPA in order to relieve present unemployment conditions.

Every effort is being made by the WPA to decrease the number of unemployed people on the program, and if possible, to terminate the program entirely. This has to be done in an orderly, systematic manner, which means the placing in private employment of those now on the program who are physically and occupationally capable of holding positions in private employment.

BUSINESS RESPONSIBILITY

All employers, in adition to being assured that a capable employee will be referred to them by the WPA, should also realize that every time

Clansman Of Plaid Answers The Call

Richard Frizelle, a resident of Daly City for nearly fourteen years, passed away at his home, last Sunday evening at twelve o'clock. He had been in delicate health since 1929 and spent much of his time in his peaceful little home at 423 Winchester street, where Mrs. Frizelle understandingly cared for him. Her greatest heritage will always be his last words to her full of love and devotion to the pal who was always so loyal to his every need.

Funeral services were conducted from the W. C. Lasswell mortuary, Tuesday afternoon at 2:30, and interment was at Cypress Lawn.

Mr. Frizelle had been employed for many years at the San Francisco Hospital as foreman in the T. B. department, until in 1932 he sought the comfort of his fireside.

He was of Scotch and Irish ancestry, his birthplace having been the rugged and picturesque Isle of Man. His lineage dates back to an old Scottish clan.

Friends Tender Birthday Party

Saturday night of last week, George Felsch of Risel street was happily surprised by a group of relatives and friends, the occasion being his birthday.

Daughter Born

The little Miss has been named Ellen Louise, after both her grandmothers.

Mrs. Smith, the former Gertrude Brauns, returned home, Wednesday of this week, with her little daughter and is spending a week visiting at the home of her parents Mr. and Mrs. R. Brauns of Mission street.

Sunny Presence Of Kay Spence Missed

Friends of East and West have been paying tribute to the memory of the late Kay Spence, trainer of the J. W. Marchbank racing establishment. Although born in Illinois, the universally respected horseman could not be claimed by any one state or community as he was that rare mortal, a citizen of the world. Wherever he went he was at home and all who met him fell under the charm of his magnetic personality. There has been much floundering about to define a "sportsman," but Kay Spence made such a definition unnecessary —he was one in the flesh.

He came to this section seven years ago with a stable of good runners owned by B. B. Jones and the late Montfort Jones, and achieved his usual success in conditioning the gallopers for the races at Tanforan. Some time later he took over the task of training the Marchbank homebreds from Heather Farm. Many a true running colt or filly did he send to the post up and down the state and up north at the height of form. He was acknowledged everywhere to be a past master at keying a runner up to concert pitch for important engagements.

The conditioner put his whole soul in his work. If not at the track directing the almost numberless things connected with preparing high-mettled thoroughbreds for contests out on the oval, he was over at Heather Farm or down at his own Deep Cliff Farm in Santa Clara County. He took as much pride in superintending operations at a blood horse nursery with the object of rearing lusty youngsters capable of holding their own on any course as in saddling winners.

And he did it all with a smile.

Entertain PTA Of Woodrow Wilson

Popular Matron Called By Death

The angel of death cut short the life span of Mrs. Leona M. McEntee of Irvington street, Tuesday of this week.

The young matron passed away in a San Francisco Hospital, where she had been ill a week with influenza.

Bridge Fiesta Asks For Special Coin

To commemorate the completion of the Golden Gate Bridge, Fiesta leaders plan to ask the government to mint a special souvenir coin.

General managers of the fiesta have been in correspondence with Congressmen Richard J. Welch on the matter. Welch, a director of the Golden Gate Bridge and Highway District, advises that he will introduce a bill in Congress to provide for the issuance of a coin which would be sold at a premium to help defray expenses of the Fiesta.

MEN MAY COME AND GO...

Times change. Our specific problems and our daily way of life change. But not the fundamental purposes of American democracy.

Last week a President was inaugurated. Among other things, he said:

"Today we reconsecrate our country to long cherished ideals in a suddenly changed civilization . . . in our seeking for economic and political progress as a nation, we all go up—or else down—as one people."

Go back to 1913. Woodrow Wilson was on the inaugural platform, speaking thusly:

"Our duty is to cleanse, to reconsider, to restore, to correct the evil without imparing the good, to purify and humanize every process . . . "

In 1861, Abraham Lincoln spoke from the inaugural rostrum:

"I plead with my dissatisfied countrymen not to attempt the dissolution of the Union. We are not enemies, but friends . . . Though passion may have strained, it must not break our bonds of affection."

In 1801, Thomas Jefferson, at his inaugural, said:

"Equal and exact justice to all men of whatever state or persuasion . . . preservation of the general government in its whole constitutional vigor . . . this road alone leads to peace, liberty and safety."

In 1789, George Washington spoke thusly on inauguration day:

"I know that as, on one side, no local prejudices, no separate views or party animosities, must misdirect the comprehensive and equal eye which ought to watch over this great assemblage of communities and individuals."

Times change, but not our fundamental purpose. So long as we hold to it, there is hope that someday we may find the means to achieve it.

THRIFTY CALIFORNIA

We're a thrifty lot, we Californians.

Remember back in the dark days of mid-depression how the government, the economists, and various self-appointed Messiahs were preaching the folly of saving for a rainy day?

"Spend everything," they said. "Shoot the works, and we'll squander ourselves rich."

Remember how a few sage oldsters shook their heads dubiously and opined as how such talk would break down and permanently ruin the habit of thrift among our people?

Well, it hasn't happened—not in California at least. Savings deposits in California banks increased $327,442,000, or 11.7 per cent, during the past fiscal year. Deposits per person are now $320, a gain of $44, the highest for the country and $20 above those of any other state.

Even persons who condone heavy spending by the state or nation in emergencies do not lightly thrust aside their individual habit of thrift, deeply rooted as it has become, over the centuries, in the nature of man.

But why California's big lead in saving? Perhaps it is merely a reflection of better conditions generally out here. And then again, the fact that our pioneering forebears had to be thrifty to make a go of life in a new land, may have something to do with it.

Progress Depends On Improvements

Before long the citizens of this community will be asked to take part with our city officials in a program of improvement and rehabilitation of our municipal buildings and other necessary reconstruction.

For many years past the city has suffered from apathy in the matter of advancement in public institutions. In the past much has been said along these lines, but heretofore only half-hearted or abortive attempts have been put forward to accomplish the end sought to be attained.

With the recent reorganization of our city government confidence was rapidly restored and the lethargy of our people has gradually been supplanted by a new and comprehensive line of thought, which is everywhere appreciably evident in all quarters.

In recent months the city council has evinced an alertness to the public welfare long absent in civic affairs.

Soon our citizenry will be called upon to vote an issue of bonds for long needed improvements. It is to be hoped that when the call comes our people will respond with such affirmative enthusiasm as will carry the effort to its ultimate consummation.

For a long period of time the obsolete and unsightly structure, by courtesy termed the city hall, has stood as an affront and eyesore to a majority of our progressive community.

It has long outlived its usefulness as a home for our city governmental institutions. It is imperative that it be at once replaced by a modern and adequate building, which will care for all the needs of our city officials and departments. Other improvements also are of the utmost necessity, and the entire program should be supported with the same energy and enthusiasm as shown by the city's governing body in advancing the projects.

Let us all arouse ourselves and put our best efforts forward to assist in this progressive setup so long delayed.

AUTOBIOGRAPHY OF THE FIRST LADY

Our own First Lady has written her autobiography. Her life story tells how she danced with the President when he was a Groton school boy. She and Mr. Roosevelt played together at Hyde Park, N. Y., when children, but so young were they that these events are not even memories; but the event that was mentally recorded in a big headliner was their first meeting, and he danced with her.

It is pleasing to know that Presidents and their wives love to think of "That Old Sweetheart of Mine," even as you and I.

Mrs. Sidney P. White, 420 Irvington street, again contributes to this column with the following:

SPICED SWEET POTATOES

Three large sweet potatoes, one cup minced nuts (any kind), one-eighth teaspoon each nutmeg, allspice and cinnamon; two tablespoons butter or fat, one teaspoon salt.

Boil the sweet potatoes until tender, mash and then add the butter or fat, nuts and seasoning. Shape into balls, rolling lightly. Dust with a little flour and fry in deep fat until golden brown

For the benefit of those who are clipping these recipes the following formula is again printed on account of an omission and a correction of title. It appeared in the January 1 issue of The Record under head of "Meat Ouchre."

MEAT EUCRE

In a frying pan place two tablespoons of butter; when hot add one and a half pounds ground round steak combined with one small onion chopped fine. Season with salt and pepper. Make a rich biscuit dough with two cups of flour, etc., and roll out on board to about three-eighths of an inch thickness. Spread over this dough all of the meat mixture except about a tablespoon full of it. Roll the dough sheet like a jelly roll and bake in a 375 degree oven for three-quarters of an hour. To the remaining mixture in the pan add one small can of tomatoes and when boiling hot add one tablespoon cornstarch (if desired) moistened with a small amount of cold water. Season. Just before serving add one cup of grated cheese. When roll is baked cut in slices, arrange on platter and pour over it the hot gravy. Mrs. E. Meier, Hanover and Roosevelt streets sent in the above and also the following:

BUTTER SPONGE CAKE

Three eggs beaten separately; that is, beat the whites first and when stiff add the three yolks, beating vigorously. Then add gradually one cup sugar (beating all the white), one-third teaspoon salt, three tablespoons hot (not boiling) water, one cup flour (sifted before measuring), one teaspoon baking powder, any flavoring desired and lastly one tablespoon hot butter. Bake twenty-five minutes in a 350 degree oven. This cake may be used as a loaf or a two layer.

Bible selections will include the following passage from I John 4: 7, 8: "Beloved let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God. He that loveth not knoweth not God; for God is love."

BATTLE IMMINENT TO PRESERVE DEMOCRACY

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

Liberals the world over are alarmed about the encroachments of autocratic governments on the true spirit of democracy. Happily Americans live under a real freedom, that directed from Washington by President Roosevelt.

Most of the experts on the troubled conditions of nearly every part of the globe boil the situation down to this:

Are we on the side of democracy or dictatorship?

In order to prevent the spread of illiberal doctrines a combination of democracies seems to be necessary, but the difficulty immediately arises of conducting that alliance in such a manner war would not ensue between the democracies and the dictatorships.

Inasmuch as the League of Nations failed to achieve its objectives, critics inquire how any new alliance would be more effective in the protection of the rights of the peoples of aggrieved countries. The best thought everywhere is working on that problem.

* * *

Not so long ago the Manchester Guardian, in looking ahead in an editorial entitled "Old Year and New," said:

"A decisive verdict for democracy was given in the tremendous majority secured by Mr. Roosevelt when he was re-elected as President in the United States election at the beginning of last November."

* * *

As to 1937 the English paper said: "With Britain, France, and the United States all firmly on the side of votes instead of internment camps, and freedom instead of force, our new year of 1937 is certainly not won for Fascism or lost for peace."

* * *

The basic element of democracy, that of majority rule, may be applied to the vexing problem of the Supreme Court, an institution that President Roosevelt called upon recently to liberalize itself and get in the current of modern thought. At a discussion in Washington not long ago students of government offered the suggestion that we go back to John Marshall and James Madison for a solution of the puzzle.

Marshall suggested that Congress might give force to any law held unconstitutional by the Supreme Court by re-enacting it Madison, in the Constitutional convention of 1787, proposed that Congress be given power to repass a bill by a two-thirds vote over a judicial veto.

Growing out of the discussion was the concrete proposition that Congress be given power to override a Supreme Court decision on constitutionality by repassing the measure by a two-thirds vote, with the further privilege, if the President vetoed the measure, of passing it over his veto by a three-fourths vote.

It is admitted on all sides that under such a plan the supreme power would be placed in the hands of the people's elected representatives, and, as has been pointed out, would be a truly democratic solution of the most important question in the country.

* * *

It is interesting to note that under the proposed reorganization of the federal government activities the Federal Reserve Board would be placed under the jurisdiction of a member of the President's cabinet. The present character of the board would be changed to the extent that the cabinet member would have direct influence over the board's actions, but the board would maintain an independence greater than other government commissions which will be consolidated within main departments.

Heiress Reported Engaged to Actor

Hazel Forbes, toothpaste heiress, who is reported secretly engaged to Bill Boyd, screen actor. Hollywood gossips insist that the engagement ring Miss Forbes has been wearing recently was given to her by the actor. Both maintain a discreet silence about their rumored troth. Miss Forbes, it was reported, has frequently been seen in Boyd's company lately.

Be Careful Of Carbon Monoxide

Carbon monoxide is the unseen killer that lurks in every garage. Unless the doors and windows are open, a running motor will generate a sufficient quantity of it within a few minutes to cause death.

The gas is colorless, tasteless and odorless. It strikes without warning. The victim lapses into a coma preceding death before he is even aware that anything is wrong.

Many deaths resulting from carbon monoxide gas have been reported in recent years while the victims were riding in closed cars on the highway. The gas has a way of seeping up through the floor boards and if no windows are open it may cause death.

Fight this deadly peril with fresh air.

SOME QUESTIONS AND ANSWERS

Question: What President of the United States was widely cartooned as the "Apostle of Luxury"?

Answer: Millard Fillmore, who finished the four year term of Zachary Taylor. He was the first President to enjoy the luxury of a bath tub. Bath tubs were at that time condemned by many doctors as being unhealthful and the state of Virginia levied a tax, annually, of $30 on each bath tub, and some cities outlawed it altogether.

Question: What did the Canadian government do to protect their Eskimos of the great Northwest from famine?

Answer: On Christmas Day, in 1929, a forced migration of 3000 reindeer was conducted by a small band of Lapp herdsmen and Eskimos. Each spring the party encamped while the deer grazed through the following summer months, gaining strength for the winter and the eastward trek.

The novel, "Reindeer Trek," by Allen Roy Evans, is written around this 1500 mile expedition, which covered a period of five years.

INSPECT WIRES

Occasional inspection should be given to ignition wires and if breaks in the insulation are found they should be taped to avoid possible short circuits.

A sudden short in the ignition system may damage the battery or other ignition parts, or cause a fire.

HOW MOTORISTS CAN SAFEGUARD WINTER DRIVING

Explanation Of "Trouble-Proofing" Automobiles For Cold Weather

Make sure your car is "trouble-proof" for winter driving.

This timely suggestion to motorists was voiced in a statement recently by the California State Automobile Association, pointing out that most of the car troubles incidental to winter travel can be avoided by proper attention to a few simple details. Among things to be done to make a car fit and dependable for driving under winter conditions have been listed the following:

Have the battery reconditioned or get a new one, and then check the battery at intervals of not more than ten days throughout the winter.

Have ignition wires checked for any leakage of current, because such leaks reduce motor efficiency and cause short circuits in wet weather. Have chafed wires replaced and spark plugs inspected for cracked porcelain or other defects.

Get brakes adjusted, because brakes which grip one wheel faster than another can cause dangerous skidding on wet pavement.

Examine tires for condition of the tread, because a good tread will hold on slippery pavement while a tire worn smooth may skid. Have cracks and cuts in tires patched and filled to protect these weak spots against added wear from gritty mud and water. Have wheel alignment checked to prevent premature tire wear and hard steering.

Check headlights, because winter driving means greater use of lights. Replace bulbs which have seen considerable use and have naturally deteriorated.

Use lighter oil in the crankcase, because this helps to overcome hard starting in cold weather, and also use lighter grades of grease in the transmission and differential.

GEARY THEATER WILL PRESENT HIT OF SEASON

Vehicle Chosen By Elaine Barrie Barrymore To Be Staged Here

What promises to be the theatrical event of the season in San Francisco will take place Monday evening, February 1, at the Geary Theater when the world premiere of Amory Hare's new play, "The Return of Hannibal," with Elaine Barrie Barrymore in her west coast debut, is presented before an expectant audience.

A heavy advance ticket sale clearly reveals the tremendous interest that the play has aroused. As is already known, "The Return of Hannibal" was the play chosen by Elaine Barrymore, following her marriage, as an ideal vehicle for a stage career and which she refused to abandon.

The play itself is a magnificent and massive stage production, necessitating 16 scenes and a cast of 45 players. Star of the play is Jerome Lawler, noted stage luminary, who will have the role of Hannibal. Other principals are Helen MacKellar, who returns to the west coast after an absence of several years; George MacQuarrie, Reginald Sheffield, Herschal Mayall and William Tannen, son of the beloved comedian and jester, Julius Tannen.

Incidental music for the play has been suggested by Leopold Stokowski, world-famed conductor, and a personal friend of Amory Hare, the author of "The Return of Hannibal."

Impressviely costumed and staged, "The Return of Hannibal" depicts the vivid and colorful drama of Hannibal's private life and the three women who found romantic madness in his presence. The play is vivid and sharply moving throughout. Amory Hare, the author, has written both an original play and a deeply stirring one. It is theater at its very highest and its premiere, therefore, in San Francisco, is distinctly in the nature of an event.

The play will be limited to a two weeks' engagement at the Geary, with matinees Wednesday and Saturday.

The betrothal news comes as a complete surprise to the many friends of the popular young couple.

The bride-elect is the daughter of Mrs. John Carbone of San Diego avenue.

Mr. Lombardi is the son of the late Mr. and Mrs. Clement Lombardi, and is a member of a pioneer San Francisco family.

a person now on the WPA program returns to private employment, it reduces the expense which they help shoulder to maintain the program. Business has an obligation in helping to place those on WPA back into private employment.

The reduction of the WPA is a district problem ,and although some employers may feel that they are not concerned, as they are not actively engaged in the administration of the program, it is never-the-less of great concern to them, as it is through their co-operation that we can supply from WPA to industry many physically strong, mentally alert skilled workers, and eventually reduce the unemployment rolls to a minimum.

FLORAL FIESTA DEFICIT WIPED OUT BY STATE

Approximately $25,000 Now Made Available For The 1937 Show

(Continued from Page 1)

to use the state money for improvements to plants, capital outlay and other similar expenditures.

McCarthy explained that 40 per cent of the state's four per cent of the race tracks "take" goes to agricultural districts and county fairs. The anticipated revenue has been greatly increased due to the heavy play of the tracks this year.

CUTS TAX BURDEN

In 1935 the taxpayers of San Mateo County contributed $8800 toward getting the Fiesta started. Last year an additional $10,750 was allocated for a total of $19,500.

More than enough money will now be available to repay the amount put up by the taxpayers, it was stated.

Last year the Fiesta had an approximate profit of $4179.67. With the $21,035.45 coming from the state, there will be $25,215.12 left over for the 1937 show.

As a result of the increased state apportionment the Fiesta can be conducted on a larger scale next year. The premiums, which for the 1936 show were $5911.46, will be enlarged and possibly new departments will be added to the Fiesta. The state appropriations are made according to the premiums.

board, and other speakers have given addresses in support of consolidation.

Declaring chances of victory in Redwood City are considerably better than when the campaign began, Dean Morris pointed out many rural sections in the Sequoia district had gone on record favoring consolidation.

OPPOSITION TOLD

Opposition to the project was based chiefly on three arguments: that consolidation would increase taxes in the immediate future, that the plan was proposed suddenly in "rush act" fashion, and that there is little need for additional education facilities in the southern section of the county.

According to Dean Morris, a million-dollar, long term, building program for the college will be carried out whether or not the Sequoia and South San Francisco districts are annexed to the present junior college district. If they are annexed, the program will be completed in a shorter time, however, he said.

The completed college will accommodate 2000 students. Present enrollment is 1100.

JEFFERSON AND HALF MOON

Jefferson and Half Moon Bay Districts were annexed to the San Mateo Junior College District on January 11. These areas and the Sequoia District, if it is annexed, will play an active part in the development of a county wide junior college.
